

CE TYPE APPROVAL CERTIFICATE

n. 158142805/OE

2014/07/08

This is to certify, that the hereunder described items of Personal Protective Equipment have overcome positively the "CE type examination", proving their conformity to the safety and health requirements of the Directive 89/686/EEC.

Manufacturer: (Responsible of the P.P.E)	GRISPORT SpA calzaturificio 31030 CASTELCUCCO (TV) – Via Erega, 1 - ITALIA	
Type of P.P.E:	Safety footwear in conformity with EN ISO 20345:2011 class I (= footwear in leather and other materials, excluding all-rubber or all-polymeric footwear)	
Category of P.P.E:	II: Personal Protective Equipment against "medium" risks. This certificate is based on the reference standards listed below: its val ensured should new version of the standards come into force.	idity is no longer
Model:	"803CD21"	material codes
Description:	model: B (ankle shoe); fastening: through laces; processing: direct injection; outsole: black rubber marked "SAFETY VERA GOMMA MADE IN ITALY HRO OIL RESISTANT ANTISTATIC ABS ANTI SHOCK"; midsole: foamed PU in "coffie" col.; outer toe-tip reinforcement: same midsole material;	022/ 1/00 2137BCP/00 - MPI/001
	upper: black leather art. "Dakar Trekking CE", declared thickness 2,0/2,2 with insert "Support System" in the heel area made of black polymeric material;	DAC/NER G016NG
	collar: textile "Vancouver" matched with perforated PE40 dotted and in black col. with insert in grey reflecting material "moon light and orlux 47";	VA <mark>A/4017</mark> MOX/47
	tongue/bellows: simple textile "Vancouver", black and dotted, centrally lined and padded; vamp lining: black lining "Aitelle 150";	VAN/4017 FCA/NEC
	rear and collar lining: black lining "AT 488 special" insole: white multilayer fabric " ZP01/1500", which also serves as penetration – resistant insert; removable insock: grey perforated foamed material with aluminum insert stitched in the forepart and a further insert in red foamed material matched with black textile in contact with the foot;	
	toe-cap: painted steel, reinforced and perforated, art. "SAFIT 604FR".	604ACRF
Technical Standard:	EN ISO 20344:2011 Personal protective equipment – Test m footwear EN ISO 20345:2011 Personal protective equipment – Safety (UNI EN ISO 20345:2012)	
Intended use:	general industry, engineering industry, agriculture, warehouses, works on trucks, cranes.	
Size range:	from 39 to 47	
Technical file:	DC- 6492 (including application for CE certification to RCT and technical documentation from the manufacturer).	
Test Report:	RCT n°330656.01/E	
Basis of evaluation:	applicable requirements of European Directive 89/686/EEC and refere	nce Standards.

CE TYPE APPROVAL CERTIFICATE

n. 158142805/OE

2014/07/08

Performance levels:

basic requirements for safety footwear (see Table 2 and 3 of EN ISO 20345:2011): all mandatory ones, among which:

SRC (*): Slip resistance - meets the following requirement:

- surface: ceramic / lubricant: detergent solution;
- surface: steel / lubricant: glycerol.

Additional requirements (Tab. 18 and 20 of EN ISO 20345:2011):

S3: closed seat region, antistatic properties, energy absorption of seat region, resistance to fuel oil, water penetration resistance and absorption (water-repellent upper), penetration resistance, cleated outsole. **HI:** heat insulation;

HRO: resistance to hot contact of the outsole.

(*): the final level of the anti-slip features is achieved after the first hours of trial stage.

Note: the penetration resistance of the synthetic stitch proof insole tends to decrease with the diameter of the perforating object; in return the synthetic insole offers more protective surface and ergonomics advantages (flexibility, insulation, humidity and impact absorption).

Marking:

on a stitched label and containing the following information:

- **CE Marking** attesting PPE conformity to all the provisions of Directive 89/686/EEC (and any subsequent amendments);

(see example below)

- name of the manufacturer (printed on the tongue);
- designation of the footwear;
- Technical Harmonized Standard of reference;
- safety symbols;
- size of footwear (also printed in the outsole);
- month and year of production;
- additional infos: internal code etc.

Note: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements.

The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
